

## AIR FRYER LH CRISP

With the new Lufthous LH Crisp Air Fryer you will get **spectacular results** in the kitchen **without ever using oil**. It generates a powerful current of hot air at high pressure/speed, which circulates homogeneously inside at different degrees of temperature, to achieve **all the benefits of fried food without its drawbacks**. Crunchy texture, appetizing appearance and all the flavour; in a beneficial way, suitable for daily consumption.

**Forget about fumes, odours, splashes, difficult cleaning...** the LH Crisp Air Fryer prepares your favourite dishes without complications or headaches. You will never use conventional fryers again.

With efficient operation, the temperature can be programmed from 80 – 200°C to reach the exact point of cooking with each food. In addition, it has a timer of up to 1 hour. **6L capacity** so that space is not a problem, with the possibility of conserving **your hot dishes for up to 2 hours**.

### Air Fryer **CRISP**★

POWER UP TO  
1,800 W

TEMPERATURE  
BETWEEN 80 AND  
200°C

TIMED UP  
TO 1 HOUR

6L CAPACITY

RETAINS HEAT  
UP TO 120'

It also has default modes for common foods such as: **French fries, poultry, seafood, meat, fish, roasts or pastries**. These modes optimise the options to give you even more excellent results, taking into account the unique qualities of each. You won't have to worry about anything. Choose the mode, your LH Crisp Air Fryer will know what to do.

If your plate is cold or you want to take advantage of the leftovers from the last meal, the **"Reheat" function** will be what you need. In a few minutes, you will once again have a dish as freshly made.

As if that were not enough, by limiting the use of oils, **cleaning is incredibly easy**. Washing utensils after eating has never been so convenient.

## Additional advantages of the LH Crisp Air Fryer

**Versatile:** roast, cook, "fry", etc.: No technique escapes it, so you can have a huge variety of dishes at your disposal. The perfect excuse to improve your culinary arts and dare with those options that you have never tried.

**Faster than an oven:** If your maxim is well-being, you're in luck. Air fryers concentrate all the power in an optimised way, reducing the preparation time needed. So that you can invest it where it really deserves.

**Economic:** It will mean savings for your pocket. By making better use of the heat, you need less time to use it. An ecological advantage for the planet (does not waste energy) and for your electricity bill at the end of the month. In addition, it will reduce your consumption of oils, so, day by day, you will notice the difference in your wallet.

**Absence of odours:** Cooking takes place in a closed container, so the discomfort of strong aromas in your home after making certain dishes will be a thing of the past. Lufthous has arrived to change it forever.

**Safety first and foremost:** Another advantage of working with a covered machine is that it reduces the risk of burns, accidents or exposure to heat (in summer, you will be grateful not to be next to a scorching appliance). Everything happens within a controlled environment, without affecting the outside.
