

LH TURMALINK PROTECT® DUVET WITH BAYSCENT® ACE

The Lufthous® product range developed for personal rest have an extensive history of articles, all made with Premium quality and are the fruit of laborious research.

The LH TURMALINK PROTECT® DUVET, is the new product that our brand offers. Using it will not only allow you to protect yourself from the cold during the coldest periods of the year, but will also bring you incredible benefits while you rest.

It is only thanks to the combination of the best raw materials and the most avant-garde technology that you can obtain a duvet with characteristics as unusual and innovative as the ones we offer you.

Bayscent® ACE

The distinctive key of the LH TURMALINK PROTECT® DUVET is in its composition; with latest generation materials, made with an smart fabric replete with microparticles of tourmaline on one side and microencapsulated Bayscent® ACE on the other side, that will allow you enjoy its benefits in your rest. If you want to know more about the special features and all the advantages that the new Lufthous® brand duvet can offer you, don't be left behind and join us.

The world of rest is in luck and we want you to witness it.

¡PERSONALISE YOUR REST!

El **EDREDÓN LH TURMALINK PROTECT®** es reversible, lo cual es idóneo para que lo uses en base a tus gustos y necesidades.

The LH TURMALINK PROTECT® DUVET is reversible, which is ideal for use based on your tastes and needs.

* TOURMALINE is a mineral with multiple advantages for your well-being. Among other things, it helps to protect us from electromagnetic pollution.

* BAYSCENT® is a line of innovative and excellent quality products used in special textile finishes by TANATEX Laboratories. These finishes are made from micro-encapsulated essential oils which, when released, reinforce harmony and well-being. The capsules gradually release beneficial essences to ensure maximum effect of their special properties.

The lining of the base with Vitamin A, C and E accompanies you during sleep.

To complete, the capsule containing these vitamins gives the surrounding atmosphere a refreshing orange scent.

BLACK TOURMALINE, WHAT IS IT AND HOW CAN IT BENEFIT US?

This is a natural mineral with a complex composition, as it contains fifteen different elements: lithium, nickel, potassium, boron complex silicate, sodium, aluminium, magnesium, etc.

Black tourmaline is a powerful energy channel and transforms negative energy into positive, high-frequency energy

You may be wondering what the benefits of this element are. Well, Tourmaline, as a material with pyroelectric properties (it generates energy as it receives heat), is capable of producing negative ions indefinitely.

When they come into contact with our body, through heat and friction, they generate a thermal effect that increases the temperature and the sensation of well-being.

Its properties applied to the LH TURMALINK PROTECT® DUVET give it a key factor, helping you to sleep better, and also to do it in a restorative and pleasant.

A GOOD REST: THE BASIS OF YOUR WELL-BEING

Maybe you've had a bad night's sleep because you don't have the right medium. This can take its toll. That's why at Lufthous® we make sure that every single one of our products is subjected to the strictest quality controls.

We provide all the necessary certifications that verify the origin and quality of our materials.

Your rest and well-being is the greatest reward for our team. Rest like never before with the LH TURMALINK PROTECT® DUVET.

Sweet dreams and thank you for trusting in us.
