

## BASE DE DESCANSO LH TURMALINK PROTECT® CON BAYSCENT® ACE

At Lufthous® we have been working for years and developing a philosophy of growth, mainly oriented to the advance and development of technology.

In order to be able to meet the most fundamental demands of our times, we have set up an unparalleled deployment of resources (both technical and human). We have the best raw materials, a group of people made up of specialists from all fields, and of course, the illusion of the first day intact, proudly contemplating how our objectives take shape and come to your home.

In this case, we are very proud to present a product intended for the area of rest and in which we have put all our efforts, it is the base of rest LH TURMALINK LUFTHOUS® WITH BAYSCENT ACE.

Of course, a good mattress is not enough for you to enjoy an adequate rest. You need an adequate and quality support base.

Our new rest base brings great novelties to the world of rest, such as Graphene Memory Soft and black tourmaline, a mineral with amazing properties.

This technology helps to protect us from electromagnetic pollution.

Resting well every night and get a restful sleep, requires you to sleep on products under warranty. Nothing better than starting from the ground up; LUFTHOUS® LH TURMALINK to wake up every morning like new.

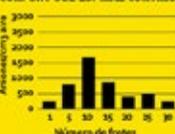

**ESTUDIO Y EVALUACIÓN DE LA EMISIVIDAD DE IONES TAPA COLORES VARIOS**

**TEJIDO TURMALINK®**  
 Nº PROTE ANIONES/cm²

1	750
5	750
10	1.500
15	800
20	1.200
25	300

## LAYERS OF THE REST BASE

- \* **Padded custom cover:** one side full of tourmaline microparticles and the other side a composition of micro-encapsulation Bayscent® ACE with vitamins A, C and E in Stretch fabric with citrus aroma.
- \* **390 G TURMALINK fabric with luminescence:** Compound of tourmaline, a mineral with great benefits for rest. It is a powerful energy channel and transforms negative energy into positive, high-frequency energy
- \* **Technical fabric** It is made with silver and copper carbon fibre fabric:
- \* **Graphene Memory Soft padding** Thanks to this application, important benefits are achieved, such as greater flexibility, better thermal regulation, greater breathability and, in short, the best possible feeling of well-being.
- \* **TNT:** Fabric that offers the best breathability, which favours the best preservation of the product.
- \* **250 gram fibre** Suitable for adapting the temperature during the icy and warm periods of the year.
- \* **29 gram fabric** \* Stretch Bayscent® ACE fabric with vitamins A, C, and E, and luminescence. BAYSCENT® is a line of innovative and excellent quality products used in special textile finishes by TANATEX Laboratories. These finishes are made from micro-encapsulated essential oils that when released reinforce the sense of harmony and well-being. The capsules gradually release beneficial essences to ensure maximum effect of their special properties.

## BLACK TOURMALINE, THE MINERAL THAT HELPS YOU REST BETTER

This is a natural mineral with a complex composition, as it contains fifteen different elements: lithium, nickel, potassium, boron complex silicate, sodium, aluminium, magnesium, etc.

Tourmaline, as a material with pyroelectric properties (it generates energy as it receives heat), is capable of producing negative ions indefinitely. When they come into contact with our body, through heat and friction, they generate a thermal effect that increases the temperature and the sensation of well-being.

The LH TURMALINK PROTECT® rest base contains 4 black Tourmaline stones, which make up an ideal field for rest and well-being. These stones act on the entire surface and their properties give it a key factor, helping you to sleep better, and also to rest in a restorative and pleasant way.

Tourmaline is a mineral used in anti-fatigue fabrics that has piezoelectric characteristics, capable of generating negative ions (anions) indefinitely, through heat and friction.

This emission or radiation is in a wave frequency, called far infrared, is used for different techniques.

It is a natural form of radiation, capable of being activated without being in contact with the skin, with numerous benefits.

## Bayscent® ACE treatment in Stretch fabric, created by the BAYER® laboratory

BAYSCENT® is a line of innovative and excellent quality products used in special textile finishes by TANATEX Laboratories. The lining of the base with Vitamin A, C and E accompanies you during sleep.

To complete, the capsule containing these vitamins gives the surrounding atmosphere a refreshing orange scent.

## A GOOD REST; THE BASIS OF YOUR WELL-BEING

Maybe you've had a bad night's sleep because you don't have the right rest medium. This can take its toll. That's why at Lufthous® we make sure that every single one of our products is subjected to the strictest quality controls.

We provide all the necessary certifications that verify the origin and quality of our materials.

Your rest and well-being is the greatest reward for our team. Rest like never before with the LH TURMALINK PROTECT®.

**Sweet dreams and thank you for trusting in us.**
