

SET LH TURMALINK PROTECT[®] SHEETS

Lufthous[®] is pleased to introduce you the new set of sheets **LH TURMALINK PROTECT[®]**.

After years of research, we have managed to apply the best technology to the world of rest. What a material such as tourmaline can bring to this field is most astonishing.

We are talking about a mineral with great power when it comes to channelling energy, substituting the negative (and harmful to our well-being) with positive and high frequency. In other words, tourmaline helps to harmonise your body while acting as a barrier against electromagnetic radiation.

As you have already deduced, these properties applied to the **LH TURMALINK PROTECT[®]** sheets give it unique qualities.

Your rest is essential to achieve everything you propose, how can you not leave it in the best possible hands? In Lufthous[®] we have years of experience. Your comfort and satisfaction is our greatest achievement.

Thank you for your trust and welcome to the world of **TURMALINK PROTECT[®]**.

WHY IS TOURMALINE AN ANTI-FATIGUE FABRIC?

Tourmaline is a mineral used in anti-fatigue fabrics that has piezoelectric characteristics, capable of generating negative ions (anions) indefinitely, through heat and friction.

In our daily lives, we are surrounded by an excess of undesirable cations (positively charged ions), produced by the electronic devices that surround us, these cations are some of the culprits of our level of fatigue.

SOURCES OF CATIONS

- TELEPHONY ANTENNAS
- WIFI NETWORKS
- COMPUTERS
- APPLIANCES
- RY ENVIRONMENTS

HARMFUL EFFECTS OF CATIONS

- TIREDNESS
- DISCOMFORT DURING REST
- TIRED SKIN
- OPPRESSION
- AGITATION

SOURCES OF ANIONS

- FORESTS
- MOUNTAINS
- WATERFALLS
- MARINE ENVIRONMENTS
- FRESH COUNTRY AIR

BENEFICIAL EFFECTS OF ANIONS

- HELPS REDUCE TIREDNESS
- HELPS RELIEVE FATIGUE
- Helps your body's well-being
- Helps prevent the proliferation of dirt
