

MEMORY LUXE PREMIUM GRAPHENE PILLOW

A good night's rest plays a fundamental role in physical and mental well-being. Therefore, Lufthous® offers you a new proposal to improve your rest, and this time, does it in style. Introducing the new MEMORY LUXE PREMIUM GRAPHENE® pillow.

Using microperforated viscoelastic we obtain a natural reaction to the corporal temperature, adapting the exact form of the neck and the head, relieving the pressure exerted on the points of contact and favouring an anatomically correct position.

We have also incorporated a microperforated core with the aim of providing the best ventilation, also favouring thermal regulation during rest.

Bayscent®
CAMOMILE

It is important to note that our brand works with the best possible resources. Proof of this can be found in the interior design of the pillow; intelligent fabric (Strech) filled with BAYSCENT® microparticles (created by BAYER® laboratory). This type of finishing of the rest fabric prevents the formation of bacteria, also providing a greater sense of well-being during rest.

Another novelty offered by the pillow that deserves special attention is its graphene foam core, a material that is characterized by being strong, but at the same time elastic, flexible, very breathable and thermal. Applying these qualities to the performance of the pillow we get a powerful ally during rest, even helping to reduce the static electricity produced during use.

Now all that's left is to settle in, close your eyes and rest like never before with the MEMORY LUXE PREMIUM GRAPHENE® pillow.

ALMOHADA
MEMORY LUXE
PREMIUM GRAFENO

WHAT IS GRAPHENE?

Graphene is an allotropic form of carbon, it is a very hard, extremely resistant, very light and flexible material, which allows it to be moulded according to needs. Graphene is stronger than diamond, has an extraordinary conduction of heat, is a good conductor of electricity much better than copper.

Graphene is called the "material of the future," and it manifests abundantly in nature.

A REVOLUTION IN THE FIELD OF RELAXATION: MEMORY LUXE PREMIUM GRAPHENE

- It adapts to the contours of your head and neck for total support and comfort.
- Helps maintain a good posture that could influence snoring
- Helps reduce cervical and lumbar discomfort
- Helps to promote muscular rest
- For all types of positions: back, side or stomach.
- Good transpiration
- Memory with perforated viscoelastic
- Adaptable
- Undeformable, anatomical
- Vaporizes moisture emitted by the body.
- Prevents the formation of bacteria and mites.
- Double zipper pillowcase that allows perfect breathability.
- Easy to carry, it includes bag with a handle.

A GOOD REST; THE BASIS OF YOUR WELL-BEING

Maybe you've had a bad night's sleep because you don't have the right rest medium. This can take its toll. That's why at Lufthous® we make sure that every single one of our products is subjected to the strictest quality controls.

We provide all the necessary certifications that verify the origin and quality of our materials.

Your rest and well-being is the greatest reward for our team. Do it like never before thanks to the MEMORY LUXE PREMIUM GRAPHENE® pillow.

Again thank you for trusting in us.
