

TOPPER LH TURMALINK PROTECT[®] WITH BAYSCENT[®] ACE

INTRODUCTION

Sleeping is one of the most important actions for our physiological development and plays a key role in our daily lives, both in the mental and physical environment.

Lufthous[®] has created the new TOPPER LH TURMALINK PROTECT[®]; reversible, with Smart fabric, made with the best raw materials.

On one side it is full of tourmaline microparticles and on the other side micro-encapsulated with Bayscent[®] ACE.

In addition, it has a different feel on each side, which allows us to use it according to our needs at all times. In addition, thanks to the four elastic straps the topper is easily adjustable to any mattress.

INNOVATION AT THE SERVICE OF REST

- TOPPER LH TURMALINK PROTECT[®] is manufactured using the greatest possible innovations and the best raw materials:
- Tourmaline, for example, is a mineral with multiple benefits for the organism (help in discomfort in joints, difficulty sleeping in addition to helping to improve our well-being).
- Graphene viscoelastic provides the best adaptive system for the body, regardless of weight and height.
- Another great feature is the SUPER SOFT CARBON MEMORY. The main advantages of active carbon is its high breathability and the ability to eliminate bad odours All this helps to prevent the formation of mould and bacteria produced by normal use and sweat.
- With TOPPER LH TURMALINK PROTECT[®] will also help to combat the effects of fatigue thanks to anions, compensating for electronic loads.

ADVANTAGES AND KEYS FOR A GOOD REST

Improved mood, we feel more positive and able to optimistically face each new day.

- Increases alertness. When we fail to rest, ideas do not emerge clearly, and we make many mistakes. Often, sleeping on a good mattress is the key to success.
- A good sleep gives us healthier skin and stronger hair.
- Thanks to our rest every night, a good rest means a better look and a fitter body.

Sleeping every night properly plays an essential role in both physical and mental health, so to enjoy a good lifestyle, it is essential to a get good night's sleep and consequently rest on a good mattress." LH TURMALINK PROTECT[®].

WHAT IS TOURMALINE?

Tourmaline is a powerful energy channeller and transforms negative energy into positive and high frequency energy, recommended to achieve a state of well-being.

Used in anti-fatigue fabrics, tourmaline is a mineral of complex chemical formulation, with piezoelectric characteristics, capable of generating negative ions (anions) indefinitely, through heat and friction.

This emission or radiation is in a wave frequency, called far infrared, is used for different techniques.

It is a natural form of radiation, capable of being activated without being in contact with the skin, with numerous benefits.

HOW DOES THE TOPPER LH TURMALINK PROTECT® APPLY THE EFFECTS OF TOURMALINE?

The TOPPER LH TURMALINK PROTECT® contains 4 black Tourmaline stones, which make up an ideal field for rest and well-being. These stones act on the entire Topper's rest surface.

The black tourmaline owes its name to its characteristic colour. It is a stone with an incredible energetic potential, besides, it can convert negative energies into positive ones. It is a highly valued stone because it can channel energies.

In the case of black tourmaline their advantages are related with the anions which the tourmaline releases when its temperature rises. They have the capacity to optimise our rest, since it helps to eliminate annoyances, as well as keeping the fabric of the topper clean.

Black tourmaline is able to help us in:

- Protection from electromagnetic radiation.
- Harmonise your body.
- Neutralise the burdens of lack of rest

BAYSCENT® finishes have the prestige of having been created by the BAYER® laboratory

BAYSCENT® is a line of innovative and excellent quality products used in special textile finishes by TANATEX Laboratories. These finishes are made from micro-encapsulated essential oils which, when released, reinforce harmony and well-being. The capsules gradually release beneficial essences to ensure maximum effect of their special properties.

The lining of the base with Vitamin A, C and E accompanies you during sleep.

To complete, the capsule containing these vitamins gives the surrounding atmosphere a refreshing orange scent.
