

NEW PRESIDENT MESSAGE & AUTOMATIC RISER ARMCHAIR

This recliner is available in beige, black and camel brown and red.

Sometimes during the day, we are subjected to various pressure situations, in which exhaustion, fatigue or accumulated fatigue can considerably disturb our well-being. At these times we need a pleasant stimulus, that promotes our well-being.

Under this premise, the LuftHous team has worked to bring together a series of concepts and studies, which have resulted in a unique and innovative product on the market; we are talking about the New President vibrating message armchair.

The amazing armchair is made with the best materials and designed as a different alternative that you can enjoy comfortably in your own home. The New President armchair will not only offer you a pleasant massage, but it will also provide a great number of benefits and improvements in your body, even helping your body flow to function better, or helping to provide a greater sense of contentment.

In LuftHous we have been concerned about you and yours for years, and in this way we can make each of our products a practical and indispensable element in your day-to-day life.

Enjoy the experience we offer you, and do not forget: you need it and we make it possible.

Easy to clean.

Benefits:

- - Eliminates fatigue.
- - Loosens the muscles.
- - Muscular relief

TYPES OF MESSAGES INCLUDED

Vibration system: Technique widely used to loosen muscles and tiredness with a simple vibrating motion of varying intensity. (It has 8 vibration motors).

Lumbar heat system: Heat generator that will effect the complete loosening of our muscles, preparing the area massaged.

It has 10 massage functions: Consisting of total relaxation, anti-fatigue, partial relaxation and activation of the body

Massage functions:

Total rest: This programme introduces us to a massage system whose purpose is to loosen muscles throughout our body. This system is recommended for people with difficulty sleeping. Highly recommended before starting a nap or going to sleep.

Anti-Exhaustion: This program is ideal for after a long day of work. System to remove the fatigue accumulated throughout the day.

Partial Rest: Ideal to eliminate and alleviate muscle aches, spasms, because we apply the massage in the affected area.

Activation of the body: Through a computerized system for allocating the massage, our whole system is activated. Great help for people with cellulite and leg discomfort...

Its features allow it to automatically programme and change massage position (head, neck, back, lower back, thighs, buttocks, legs) and change the intensity and duration...
