

WALK FIT TREADMILL

Walking and jogging is the challenge of modern man. This goal is to avoid a sedentary lifestyle and consequently do physical exercise as the best ally of our hearts. Anyone has the ability to perform any physical or sporting activity, but we have a big obstacle, daily work and the inevitable consequences of a sedentary lifestyle.

Walking 30 minutes to an hour a day has immediate benefits for our well-being, both in body and mentally. Now you can enjoy the gym at home with this high performance Walk FIT treadmill.

Practice sports... without leaving your home

Certainly exercising is highly beneficial for our body.

The living conditions of modern society, especially due to the technical and mechanical advances, such as escalators, elevators, and cars, among others, have caused us to increasingly do the same things with less effort and decrease our overall mobility.

With the **WALK FIT** treadmill you can choose the speed range from 1.0 km/h to 12 km/h.

The **WALK FIT** Treadmill is designed to be easily folded for use at home or in home gyms.

INTUITIVE PANEL

- **Its LCD screen shows:** SPEED, TIME, DISTANCE, CALORIES BURNED, HEART RATE, PROGRAMS.
- The speed range is from 1 km/h to 12 km/h.
- There are 12 programmes
- IT HAS SENSORS ON THE HANDLEBARS FOR THE HEART RATE
- They measure the pulses per minute, range 40 to 199

AVANT-GARDE DESIGN

EASY TO STORE. FOLDING AND UNFOLDING

To a future together. To a better future.

Thank you for being part of our project.

Technical characteristics:

- Compact and ergonomic design.
- Quick, direct and easy to use.
- LED screen.
- Control Panel (records: speed, time, distance and calories).
- Heart rate measurement
- Safety system
- Foam-padded gripping arms for comfort and convenience
- Foldable, takes up very little storage space.
- Belt adjustment system
- Includes 2 front wheels to ease of movement.
- Base reinforced with rubber pads for the floor: greater fixation and stability.
- Maximum weight: 110 Kg.
- Armrest with foam pads
- 12 preset programmes
- 2 bottle holders

TECHNICAL DATA

- **Voltage:** 220-230 V.
- **Frequency:** 50-60 Hz.
- **Power:** 1.0HP.
- **Maximum authorised weight:** 110 kg.
- **Speed:** 1-12 km/h.
- **Control panel** that displays the time, distance, speed and calories burned.
- **Running table:** 100 x 36 cm.
- **Measurements when folded:** 124 x 55 x 61 cm.
- **Measurement when open:** 130 x 61 x 124 cm.
- **Net weight:** 25 Kg
