

PRESSOFEET PLUS MASSAGER

Our feet are an area affected by everyday activities, natural wear and tear and sports activities. With the PRESSOfeet Plus Massager you will take care of your feet and manage everyday discomfort with a device that combines different massage modes and functions.

Multidirectional 360° foot massager.

It combines a variety of functions including scratching, roller kneading, acupressure with push kneading and air pressure and heat.

Its pads facilitate deep massage and acupressure, relieving the body's meridians:

- Meridian cleansing, qi optimisation and internal mobilisation.
- Removal of undesirable substances, skin care and fatigue relief.

You can enjoy your massage whenever and wherever you want thanks to its portable and ergonomic design; and you can control all its functions with a simple remote control:

- Timer configuration.
- Massage mode selection.
- Intensity dimmer.
- Heat function.
- Relax function.

Equipment components:

Central pad: Scratching – Acupressure on the arches with heat.

Front pad: Roller kneading – Acupressure on front soles.

Rear pad: Push kneading – Acupressure on heels.

Inner air bag: Air pressure on the instep.
