

## MULTIFUNCTION OZONE AIR SLIM

### CLEANER AIR IN YOUR HOME

**MULTIFUNCTION OZONE AIR SLIM** is the ideal device to help keep the air in your home clean and without particles in suspension (dust, pollen, animal hair, dust mites and others).

Currently, this appliance is the most complete on the market. You can now forget about air fresheners and other systems that use chemical substances that can be harmful to your body. The operating system is suitable for use in the home securely and comfortably.

We are talking about a new product and with multiple applications in the domestic sphere, especially in the parts of the house in which the largest number of odours, dirt and other particles in suspension are concentrated.

It is also the perfect ally to help fight respiratory problems, skin problems, etc., that can benefit from a clean environment.

### OZONE AND ITS BENEFICIAL PROPERTIES

This appliance has a basic operating principle; the download process generates ozone and negative ions. This process uses air, high voltage and frequency.

Ozone is a natural component that can help destroy particles in suspension, contributing to the prevention of discomfort for the organism.

Therefore, one of the main features of the **MULTIFUNCTION OZONE AIR SLIM** device is its versatility, as it can be used both to deodorize the atmosphere, as well as to clean spaces (the latter is of vital importance, since it not only eliminates these particles in the environment, but also inhibits their growth).

### A VERSATILE PRODUCT DESIGNED FOR YOUR HOME

One of the main features that the **MULTIFUNCTION OZONE AIR SLIM** offers, is the possible use in different places in which odours and particles in suspension of a different natures normally thrive.

Effectively removes odours and particles in suspension of different natures in places like closets or shoe racks, helps to eliminate bad odours and is even able to break down formaldehyde emitted by furniture.

In addition, its use in the refrigerator presents a useful and novel application, helping to prolong the freshness of fruit, vegetables, meat and fish, thus avoiding the mixture of smells of different foods.

Another application recommended for **MULTIFUNCTION OZONE AIR SLIM** is in the interior of a car, as it is a small passenger compartment in which can concentrate usually different smells and allergens, similarly to what occurs in bathrooms, kitchens or other similar areas.

## TECHNOLOGY AND DESIGN

MULTIFUNCTION OZONE AIR SLIM has a compact design, which allows you to easily move it and apply its use in any corner.

Without a doubt, this is the perfect combination of cutting edge technology and elegance, becoming part of the usual homogeneity of your home as a decorative element.

This device is a sample of the careful work by Lufthous to develop its products, paying attention to every aesthetic and functional detail.

## SIMPLE AND INNOVATIVE OPERATION

## LUFTHOUS

"There are a lot of people who suffer from respiratory problems, caused by allergies and asthma. This may be due in large part to the environment that surrounds us, being able to influence the temperature, contamination or other factors.

From time immemorial, there has been nature responsible for imposing these conditions to human beings, impacting directly on the atmosphere created in our homes. Considering the fact that we spend much of our life in enclosed spaces, this question can be somewhat disturbing. But, what if I told you that it is now possible to control the dirt in the environment that surrounds us? Breathing clean air, free of negative particles in these small spaces is now a reality thanks to Lufthous.

With MULTIFUNCTION OZONE AIR SLIM I was able to personally discover the innumerable advantages of this device, coming to the final conclusion that it is one of the most compact and efficient air purifiers on the market. This instrument is a huge technological advancement that helps to remove contaminants, fumes, elements and other particles in suspension.

Thanks to the ozone cleaning properties, this device is the perfect complement to your home. In addition to presenting great help for people with respiratory problems, skin, etc., it provides a clean environment that benefits you.

Lufthous thinks of solutions for you and makes them possible thanks to its team of experts and professionals. Without doubt, it is a company that maintains a close and exquisite relationship with its users, and that in the end, you can see the results.

**Once again, thank you for your trust."**
