

DOT Vacuum Cleaner Robot

The DOT Robot Vacuum Cleaner will be your best ally in the daily cleaning of your floors. In your home, office, commercial premises... any space can benefit from the advantages of the **DOT Robot Vacuum Cleaner**. **Change your routine forever**, just turn it on (manually or from your mobile/tablet via its app) and let it do the 'route' to achieve spotless results in a comfortable, effective and constant way.

Independent and efficient so that you can forget about this task forever.

A robot vacuum cleaner like no other

- State-of-the-art **HEPA 12** filtration system. Retains even more particles
- Double tank: Dust (for suction) + Water (for thorough cleaning with a damp mop)
- **Pet hair, crumbs, dust, dirt...** cleans up anything that escapes the broom.
- Returns to its charging station when needed
- Creates a **'smart' route** thanks to precise sensors and a gyroscope to anticipate obstacles
- **User friendly APP** to control all cleaning parameters: set the time, choose the mode, start it, stop it... Whatever you need, instantly.
- Optimises its operation. Learns with every use to get more done in less time.
- Energy savings, by finishing earlier than other alternatives
- Dust bucket easy to remove and empty. A robot vacuum cleaner with minimum maintenance
- Remote control for those who prefer a more traditional, comfortable control

21st century cleaning

- Download the 'Smart Life' application
- Connect the robot and your device to the Wi-Fi network.
- Link the device
- You will have full control of the cleaning

A robot vacuum cleaner adapted to you

- Compatible with Google Assistant and Alexa
- Choose the route of your choice. Where it will start and where it will end

- Automatic cleaning mode so you don't have to worry about scheduling if you don't want to
- Edges function for difficult spaces
- Set the time for it to start/finish cleaning so that you are not disturbed when you are in the room or resting.
- Intelligent space mapping so you can clean a single room in your home, go over an area that has become dirty or that has a specific use.
- In addition to vacuuming, it also includes a damp mop to keep your floors spotless.

With all the accessories you need

- Remote control (batteries not included)
- User manual
- 2 spare side brushes
- 1 additional HEPA 12 filter
- 1 Cotton filter
- 1 Mop cloth
- 1 Water tank
- 1 Dust collection bucket
- 1 Cleaning brush
