

DEEP CLEANING

DEEP CLEANING STEAM CLEANER WITH IRONING

TECHNICAL CHARACTERISTICS

- MEASUREMENTS: 305 x 397 x 235 mm.
- VOLTAGE: 220-240V.
- IRON: 800 W
- STEAM: 1,500 W
- TOTAL POWER: 2,300 W
- PRESSURE: 5 Bar
- VOLUME OF STAINLESS STEEL TANK: 1.5 L.
- STEAM FLUID: 40G/MIN.
- STEAM RESERVE
- HEATING TIME: 6 minutes

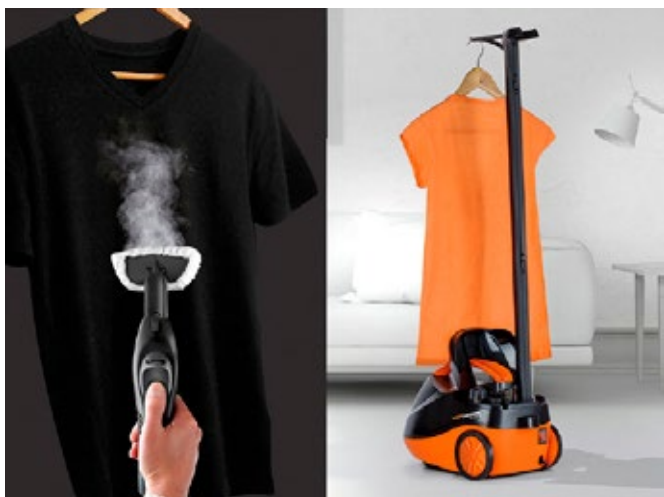

A perfect match. Everything you need!

DEEP CLEANING uses a unique patented technology that uses a high temperature and steam pressure (up to 135°) to clean the floor, windows, extractor fans, air conditioning and microwave ovens without using chemicals or any risk of damage to your appliances while cleaning

The DEEP CLEANING Steam cleaner has an endless range of accessories that will allow you to clean the house from top to bottom:

ACCESSORIES:

- - EXTENSION TUBE
- - CLEANING CLOTH
- - NYLON BRUSH
- - METAL BRUSH
- - ACCESSORY FOR WINDOWS
- - SPIGOT FOR CORNERS
- - SPIGOT FOR HOSES

¡TODO LO QUE NECESITA!

EVERYTHING YOU NEED TO CLEAN YOUR HOME WITH THE POWER OF STEAM.

THANKS TO THE STEAM YOU CAN COMFORTABLY CLEAN ALL TYPES OF SURFACES. (FLOORS, WINDOWS, WALLS, CEILINGS, UPHOLSTERY, CARPETS, VEHICLE RIMS, ETC.)

RESPECTING THE ENVIRONMENT, NO CLEANING PRODUCTS NEEDED

CLEAN THE MOST INACCESSIBLE PLACES

The Steam Cleaner with Ironing Attachment and Accessories is a complete and powerful apparatus that carries all the necessary accessories to make your daily cleaning easier and more effective. Its 1,500 W of power makes any stain easily come out.

It also immediately becomes a powerful ironing station, which due to its high steam power, eliminates wrinkles in a single pass, which will save a lot of time.

This complete equipment carries everything you need, from steam gun, to iron, to extension accessories, to corners, etc.

NOT ONLY CLEAN, BUT ALSO DISINFECT:

The Steam Cleaner with Ironing Attachment, shoots steam up to 135° C, so it sanitizes everything that can be cleaned with water: glass, mirrors, tiles, all types of floors, sanitary ware, carpets, motors, swimming pools, etc. It also removes the dust, degreases the kitchen, disinfects the bathroom and can iron your clothes.

CLEAN UP MUCH FASTER:

A dry stain, with traditional methods, cold water or cleaner, must be rubbed several times. With the steam cleaner, simply direct the jet of steam to the stain, and this will soften it in a few moments and in most cases will immediately disappear. In addition, when the object that we are going to clean has a difficult shape, it is sometimes very hard to clean by hand, for example, sliding windows, which with a rag, never clean the corners as well as we want. With the steam cleaner, you simply have to shoot steam.

DEEPER CLEANING:

The steam cleaner not only cleans, but also disinfects, cleaning not only what is seen, but also what is not seen (bacteria, mites, etc), in such a way that leaves the surface or fabric so clean that we will have to clean less frequently, with considerable savings of effort and money.

SAVE MONEY:

It is not necessary to use chemical cleaners, detergents, etc. The Steam Cleaner cleans only with water, with considerable savings and also more ecological.

IRONING STATION

- The Ironing Station is a powerful 800W appliance, which will allow you to iron much faster than with traditional irons.
- It will leave everything much better and more easily ironed.
- It generates much more steam than a traditional iron, since the steam is generated in a larger separate boiler.
- You will tire less, since it weighs less than a traditional iron, since the tank and the boiler are separate.
