OPERATION AND CHARACTERISTICS

Can you imagine being able to dry your body after a shower/bath in just two or three minutes, without the need for towels? Now you can prolong the sensation of pleasure after the shower in a stimulating way while you dry, and you can even choose between hot or cold air.

With Speed Body Dryer you also avoid an excessive accumulation of humidity, something that with the use of towels is inevitable, and can cause serious disorders in the skin or hair.

In addition, the device is designed to act as a cleanser avoiding dust particles, cleaning and favouring the flow of clean air.
