

## “EASY DRESS” CLOTHES DRYER

At LuftHous we work every day to offer you something more than a conventional product. Our team is formed to meet the needs of each of our users, striving to bring our own idea of the future and progress to your home. On behalf of the entire team, we congratulate you on your new purchase.

Easy Dress is not a common clothes dryer. It is a highly useful and innovative utensil, designed to facilitate your life and that of your family.

Its sophisticated and modern design will not only delight your senses. Easy Dress is specially designed to occupy a minimum space in the room where you are. Also, it is very easy to assemble and disassemble. You can save it in any corner when you do not need it and want to do without.

Its system is totally efficient and safe; using a PTC ceramic heater with ultra-quiet fan, you will get the best result for your clothes, without annoying noises and at the fastest possible speed.

As we already said, at LuftHous we do not settle for conventional results, and because of that, we like to go a step further. The Easy Dress dryer incorporates a perfumed function so that your clothes are truly impeccable. You will be surprised by the results.

Finally, it should also be noted that it prevents secondary contamination and prevents the penetration of dust, parasites and other particles in the dryer.

Save on energy and time; let Easy Dress make your life more comfortable and simpler.

LuftHous works to make your needs come true. Welcome to the future

- The drying is done using a PTC ceramic heater, a safe and efficient system.
- Electronic control.
- The ultra-quiet high-speed fan offers faster drying by increasing the interior temperature in just a few seconds.
- Prevents secondary contamination and prevents the penetration of dust and parasites in the dryer.
- Includes a perfume function.
- Easy disassembly to be stored and occupy minimum space.
- Energy saving.

## OPERATION OF EASY DRESS

1. The fan generates the necessary air to carry out the drying process.
2. Insert the PTC heater in the dryer.
3. Hang the clothes on the static bar to apply the action of hot air.
4. You just have to wait until the moisture evaporates, leaving the clothes perfectly dry.

## FUNCTIONALITY AND APPLICATIONS:

- The Easy Dress clothes dryer is perfect to be used in winter; period in which we have little sunlight throughout the day.
- It is also ideal in places with humid climates, or with a lot of rain.
- For cases in which a frequent change of clothes is needed.
- It is very useful when we have little space on the site.
- It can also help us a lot in various situations such as trips or moving.
- In addition, it efficiently prevents the typical mould odour, and the exposure to odours and contaminating particles that may be found outside.

Are your clothes wrinkled, wet or impregnated with odours? You will no longer have to take them to the dry cleaners. Lufthous presents Easy Dress, an innovative clothes-drying system that gives life back to your most delicate garments, thanks to its exclusive technology.

Thanks to its remote control, this task will be even easier and more comfortable, with the push of a button.
