You may have heard of active oxygen and its properties. Its use (applied mainly to water), began being very common in hotels and hospitals. This is due to its cleaning properties. Now we offer you the possibility to enjoy in your own home an unparalleled cleanliness.

With the new OKO OZEAN PLUS equipment you will have access to unlimited active oxygen treated water; for your washing machine, dishwasher, bathrooms and kitchen... and you can even wash your pets!

It is important to note that OKO OZEAN PLUS does not use any chemicals, nor does it harm the environment. By using it you will be contributing to energy saving and improving the sustainability of the planet.

Let's write the future together; for a cleaner and more prosperous future!

OPERATION

Following a procedure similar to that carried out by nature (principle of magnetisation; first applied to tap water and then mixed with active oxygen) the water you use daily for cleaning your home will be endowed with purifying properties that are beneficial for a fuller cleaning.

It is simple and intuitive:

1. The tap water is magnetised.
2. The magnetised water is mixed with active oxygen and silver ions.
3. Use the properties of treated water for cleaning your home.

YOUR CLOTHES, BETTER THAN EVER!

Applied in your washing machine, the water treated with active oxygen achieves incredible results. Every time you use it, you will be contributing to a better elimination of non-desirable elements that might be in the fabrics.

Especially recommended for people with skin complaints.

In addition, thanks to the properties that the treatment confers to the water, your clothes will look better; more intense colours, whiter whites... Also it helps you to eliminate the typical smells of the use and the dampness. No detergent, no fabric softener!

LUFTHOUS® QUALITY

After years of work and effort, we have proven to be a benchmark of innovation, commitment and quality.

Each of our devices is the result of numerous investigations and conscientious field work. Only then, we can guarantee that you enjoy fabulous benefits and advantages in your own home that we could only dream of before.

All this wouldn't be possible without your trust. Thanks to you, our project grows and moves in the right direction.

What is our main objective? Your satisfaction. For this reason we thank you once again for the support and trust you have placed in each of our projects.

To a future together. To a better future.

THE NEW CLEANING SOLUTION, MAKE A COMMITMENT TO THE ENVIRONMENT

TECHNICAL SPECIFICATIONS

Name	OKO OZEAN PLUS
Model	G3
Electrical	input: AC 100-240V/50-60Hz output: DC 12V 3A
Water pressure:	0 psi ~100 psi
Operating temperatures:	With cold or hot water up to 40°C
Product size:	47x23,8x8 cm
Net weight:	3 kg approx.
